PROJECTS:

Website developed:

1. <http://bhideyantra.000webhostapp.com/>

(Using HTML, CSS, Bootstrap, JavaScript, PHP, SQL Server)

Description:- This website provides the information about all the products manufactured by the company. This system makes user flexible and efficient to place their order without actually visiting the store.

Softwares developed:

1. **Software for Bricks Production Company**

(Using VB.NET, Access Database)

Description:- This system is mainly developed for the owner of the company to maintain all the details regarding their employees, dealers, customers and their orders which helps in reducing the task of maintaining documented details.

2. **Hostel Management System**

(Using Java, SQL, Oracle)

Description:- This application is developed to manage the various activities in the hostel. We have designed this system to reduce the manual work which is more time consuming.

3. **Bank Management System**

(Using Java, Access Database)

Description:- This system helps the bank authorities/employees to carry out different bank activities like creating customer accounts, storing each transaction details, showing balance, etc. Only authorized person can enter into system.

ACHIEVEMENTS AND WORKSHOP:

- Worked as President of CSI (Computer Society of India) committee in Institute.
- Certified in “**C Programming**” Language.
- Participated in 2 week workshop on ‘**Python Programming**’.
- Achieved **2nd rank in kho-kho competition** at zonal level competition held at Sangli.
- Participated in various technical and non-technical events.

INTERPERSONAL SKILLS:

- Good Management and Communication Skills.
- Team Work.
- Active Listening.
- Focused.
- Adaptable to new environment very quickly.
